

CALL FOR NOMINATIONS

Bernard Blum Award for Novel Biocontrol Solutions

The Bernard Blum Award is presented annually by IBMA to the most innovative biocontrol product of the year. The award recipient should have a high impact in the management of pests or diseases whilst having a low impact on human health and the environment.

Every year since 2015, an independent jury selects among a number of entries a winning biocontrol product which provides an effective solution in the management of pests or diseases while having a low impact on human health and the environment. A second and third place are also awarded.

Nominations are open until 17:00 CET 24th JULY 2020

Please send your nomination by email to administration@ibma-global.org

Similar to the past five years, IBMA will award a trophy, interview and product placement in New Ag International and 2BMonthly publications, as well as complementary registration for ABIM 2021 for the winning innovation. The three shortlisted finalists will have the opportunity to present their innovative products at the award ceremony and banner/poster display at ABIM 2020, the premier global biocontrol industry event.

APPLICATION FORM – BERNARD BLUM AWARD 2020

Co	ontact details:
•	Name of company:
•	Address:
•	Contact person:
•	Email:
•	Phone number:
	equiption of the new instead product.
	scription of the nominated product:
• N	lame of the biocontrol product:
• F	roduct type (such as microbial):
••••	
• V	Vhat is the target pest/disease and crops/market of the product?

• What is innovative about this product?

• What is the scientific value/uniqueness of this product?
