

- Product type (such as microbial, IBCA, Semiochemical, Natural Substance, Monitoring device, etc...): .....

.....

- What is the target pest/disease and crops/market of the product?

.....

.....

.....

.....

- What is innovative about this product?

.....

.....

.....

.....

- What is the scientific value of this product?

.....

.....

.....

- What is unique about this product giving examples?

.....

.....

.....

- What is the contribution to sustainable agriculture of this product?

.....

.....

.....

.....

.....

.....

- Why will the product be commercially adopted and what are the commercial expectations including market placement?

.....

.....

.....

.....

.....

- If this product is one that assists the uptake of biocontrol in the market, how will it achieve this?

.....

.....

.....

.....

.....

.....

- Any other information that demonstrates the innovation and usefulness of the product. For instance, examples of use and results, short summary of safety data, novel mode of action, etc.... :
