Definition of Agriculture Turnover

Agricultural Turnover shall be determined as Total Turnover minus any Turnover which is non-agricultural based on the following definitions thereof.

"Agricultural Turnover" shall include:

- All sales of biocontrol, crop protection, biocidal, seeds, fertilizers, biostimulants, plant or crop care products without limitation and regardless as to whether such products are for use in:
  - farming
  - home and garden applications, either for professional or hobby users
  - public hygiene applications defined as any treatments applied in the environment with a view to avoid or reduce the presence of unwanted organisms.

As Non-Agricultural can be considered:

- Sales of products or services which are:
  - Sales of machinery and electrical or other equipment or hardware (non consumables) as well as services related to the operation or maintenance thereof.

For organisations that do not sale agricultural products such as agencies, please consider the turnover generated by customers active in this area.

Definition of SME

For statistical purposes, we ask you to indicate whether your organisation is a SME or not.

The category of micro, small and medium-sized enterprises (SMEs) is made up of enterprises which employ fewer than 250 persons and which have an annual turnover not exceeding EUR 50 million, and/or an annual balance sheet total not exceeding EUR 43 million.

Within the SME category, a small enterprise is defined as an enterprise which employs fewer than 50 persons and whose annual turnover and/or annual balance sheet total does not exceed EUR 10 million.

Within the SME category, a microenterprise is defined as an enterprise which employs fewer than 10 persons and whose annual turnover and/or annual balance sheet total does not exceed EUR 2 million.
